PROFILE

Systems-minded developer with 3+ years of hands-on experience across AI-assisted workflow design, CRM-related process organization, content operations, and independent technical development. Builds responsive React and TypeScript interfaces, structured Python and FastAPI code samples, visible workflow state, and human-reviewed automation experiences.

PROFESSIONAL EXPERIENCE

Freelance Digital Systems & Automation Developer

MANAGEMENT SERVICES RT LLC · FLORIDA, USA · JAN 2023 — OCT 2025

- Built and supported AI-assisted workflows for recurring content operations, structured prompts, review checkpoints, and digital deliverable handoffs.
- Standardized the path from brief to delivery through organized inputs, quality-review steps, workflow status, and documented next actions.
- Organized CRM-related follow-up structures, process documentation, and handoff context to make active work easier to track.
- Produced and reviewed English- and Spanish-language digital assets for accuracy, tone, and audience fit before delivery.
